

## Water fun times two

The 'Octo Buddies' from **Schildkröt** (via **MTS Sport**) promise ultimate water fun. The set includes two colorful octopuses. You can squeeze them together so that they absorb water, then throw them and let it splash. The slippery tentacles of these reusable water bombs enhance the effect even more. They can be used in the pool, on the beach or in the bath, for example.

### 7/C-77

The soft and wobbly rubber material of the 'Octo Buddies' offers a special feel. Das weiche und wackelige Gummimaterial der „Octo Buddies“ bietet eine besondere Haptik.

## Thinking in circles

A complex labyrinth of colorful obstacles and sliding tracks can be found inside 'Addict-A-Ball' from **Invento**. The 100 or 138 stages (the ball is available in two sizes) can only be overcome by those who are clever and patient. The aim is to get a small silver ball to the finish line.

### 6/C-29

Only those who stay calm and play skillfully will manage to get the little silver ball to the finish line in 'Addict-A-Ball'. Nur wer ruhig bleibt und sich geschickt anstellt, schafft es, die kleine silberne Kugel in „Addict-A-Ball“ ins Ziel zu bringen.

The 'Micro X-Warrior 2.0' also comes with a ski jump and pylons to build your own race tracks. Mit dem „Micro X-Warrior 2.0“ kommen auch eine Sprungschanze und Pylone, um eigene Rennstrecken zu bauen.

## For hot races

The remote-controlled buggy 'Micro X-Warrior 2.0' from **Carson** has a 2.4 GHz remote control system and a driving time of 15 minutes. It has two speed settings and can reach speeds of up to 20 km/h. The lively and agile mini racing car masters tight bends, overcomes obstacles and has sufficient grip even on uneven surfaces thanks to the non-slip rubber tires. The LED lighting can be switched on and off via the transmitter.

## Cuddly to scream about

The three 30 cm tall cuddly toys 'Monkey Madness', 'Babbling Bear' and 'Rambling Rabbit' from the 'ScreamerZ' line from **Simba Toys** can get pretty loud. If you press their tummies, they open their mouths and let out a short scream. If you press harder, they scream louder. If you press and shake them at the same time, they let out a funny, wobbly scream.

### 6/C-03, C-09

If you press the belly of the 'ScreamerZ', they emit shrill cries of different volumes. Drückt man den Bauch der „ScreamerZ“, stoßen sie unterschiedlich laute und schrille Schreie aus.
