

The design of the sand toy, which has been awarded the 'Spiel gut' label, is adapted to the ergonomics of small children's hands.

## New in organic quality

**Schildkröt** (via MTS Sportartikel GmbH) now offers its proven '7in1 Sand Toy Set' in organic quality. The bioplastic is made of sugar cane and is free of any harmful substances. Besides the foldable 3-litre bucket, the compact set contains sand toys for digging, shaping, sifting and raking. The new soft-touch handles also provide comfort and safety.

## In a new look

**Puky** has been making children mobile for 70 years. Now the company presents its 'LR Light wheels' in a new design. All models combine lightweight aluminium frames and components with proven features of the manufacturer, such as the typical Puky footboard for foot rest or the specially developed wheel saddle.

**7/B-02**

The new 'LR Light wheels' from Puky are available in different colours.
